The Seventh Congress of the Workers’ Party of Korea Has Been Convened in Grand Style As a Glorious Meeting to Be Worthy of Note in the History of the Great Kimilsungist-Kimjongilist Party
Opening Address at the Seventh Congress of the Workers’ Party of Korea

Dignitaries, delegates, comrades, friends:

Today is a monumental day, when the Seventh Congress of the Workers’ Party of Korea is taking place amidst the deepened struggle in the Juche revolution, the most glorious historical era of the nation. This is the first and the most meaningful party congress in the year 2016, a year that marks the 70th anniversary of the founding of the DPRK.

The imperialists strained the situation constantly for the past dozen years, using all sorts of tricks and maneuvers geared to sanctions and strangulation, and pursued a vigorous attempt to obstruct the DPRK’s economic development and political and diplomatic activities. The Soviet Union and some Trotzkyist circles are engaged in a new round of smear campaign to smear the DPRK’s external relations and disrupt the country’s development. The DPRK has enjoyed unceasing progress in all aspects of development and solidarity since the Sixth Congress of the WPK. Thehideous attempts of the US imperialists, the South Korean Government and the Trotzkyist circles to suffocate the DPRK with sanctions are bound to come to naught.

In the unprecedentedly hard times when the world economic recession is deepening, the DPRK has overcome the unprecedented hardships and difficulties, by decisively implementing the cause of the Juche revolution. We have achieved the first hydrogen bomb test, the first satellite launch and the first underwater nuclear test and have accumulated momentum for a new development in all aspects of the national economy. The DPRK has successfully overcome all kinds of difficulties and obstacles and has made momentous achievements in all sectors of the national economy. The DPRK has established a strong nation with self-reliance and self-sufficiency, a powerful revolutionary party and a mighty army, all of which serve as invaluable treasures for national development and a source of mighty inspiration for the world. The DPRK is not only going through a new period of great leap in development but also achieving a new stage of high development. With the economic development of the DPRK, the DPRK’s political and diplomatic activities are also gaining momentum.

In the seven years since the Sixth Congress of the WPK, the DPRK has made momentous progress in all aspects of its development and solidarity. The DPRK has a young generation of revolutionaries full of iron nerves and confidence. They have a strong resolve to achieve the final victory of the Juche revolution.

Under the leadership of the WPK, the army and the people around the leader, Kim Jong Il, have firmly and resolutely carried forward the invincible WPK, and eternal leaders of our Party and the victory of the socialist revolution. The DPRK has a great and mighty army and a revolutionizing, working people. The DPRK is a country brimming with the revolutionary might of an invincible army and a strong revolutionary party, which can face any challenge and defeat all kinds of threats, obstacles and difficulties. The DPRK can continue to go forward with all the people filled with iron nerves and confidence, and achieve the final victory of the Juche revolution.

I propose to observe a minute’s silence in memory of the precious lives in the struggle for socialist construction, as well as the mass of our Party. They are attributable to their priceless blood and self-sacrifice. All the achievements of socialism and the gains of the revolution to the last are attributable to the noblest tribute and greatest glory to the great Comrades Kim Il, Choe Hyon, O Paek Ryong, O Jin U, Choe Sung In, Kim Il Sung, Kim Jong Il and the other figures passed away.

During the period under review, the WPK embodied the Juche-oriented line of party building of General Choe Hyon, the President and the General in high esteem as the centre of the mass struggle of all the Party and people, and safeguarded the red flag of the WPK, the army and the people around the leader, Kim Jong Il, to hasten the final victory of the cause of the Juche revolution.

At this moment I express my deepest sympathy and tribute to all the comrades who passed away in the struggle for the Juche-oriented line of party building of General Choe Hyon, the President and the General in high esteem.

Kim Jong Un also clarified that splendid
The Workers’ Party of Korea, which defends the road of victory under the leadership of the Juche idea and the genuine socialism with Korean characteristics, is leading the race for the future with revolutionary faith, perseverance and confidence.

The Supreme Leader, Comrade Kim Jong Un, said that the major task the Party faces now is to speed up the building of a powerful socialist country and bring about great victories in the fields of politics, the economy, science and technology, the military and culture. The Party is carrying out the three revolutions—the ideological, political and military revolutions—and opening up the path ahead for realizing the goal of building a powerful socialist country.

To accomplish this goal, it is essential to conduct the whole country on the road of victory under the leadership of the Party, which is at the head of the country. The Party has set forth five fundamental issues to make this possible:

1. To thoroughly implement our Party’s general line of socialism with Korean characteristics and implement the Party’s guidance in every sector of society
2. To carry forward the revolutionary cause of the Party and the people, upholding the Party’s line and ideas
3. To carry out the Juche philosophy and make the people play a leading role in various fields
4. To expand the struggle for national reunification under the leadership of the Workers’ Party of Korea
5. To speed up the construction of a fallacious socialist culture and lifestyle

The self-development-first spirit is a spirit of building the country and making it strong and powerful through the efforts of the people. It is the eternal cornerstone and the solid foundation of the development of socialism with Korean characteristics.

He said:

“The self-development-first spirit is basically a philosophy that the country and society should be built up and developed by the whole nation through the efforts of the people, which is the most important and solid foundation of the building of a socialist country. A socialist country means that the people should be pushed forward so as to make all people powerful builders of socialism with a socialist business responsible management system. It is required to build up and develop our country and society through the efforts of the whole people. Only by this can we speed up the building of a powerful socialist country and realize a socialist culture and lifestyle maintained thoroughly, and cultural infiltration should be thwarted, the whole society should be built up as the strong and powerful society with a socialist culture and life, as a socialist business responsible management system. The Party should lead the self-development-first spirit, and the people should play a key role in it. It should be built up thoroughly in the political, economic, cultural and all sectors of society to let all people accept and carry forward this spirit.”
